M.N. Von Buhr Primary Patent Examiner Art Unit: 2125

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

None of the prior art of record, neither alone nor in combination, is deemed to fairly and/or reasonably teach or suggest the instantly claimed "dividing the plurality of pieces of process data for the respective process parameters and for respective steps of a process recipe for operating the plasma etching apparatus" and "creating a multivariate analysis model using data obtained by dividing the plurality of pieces of process data" (or similar language in each of the independent claims), as previously addressed by Applicant, at pages 6-8 of the response received on 14 May 2007, and "wherein the plurality of pieces of process data includes a gas pressure and plasma emission voltage in a reaction chamber; a flow rate of helium gas flowing between a lower electrode and a wafer; and powers of a progressive wave and a reflected wave of a high frequency power supplied from a high frequency power supply to the lower electrode" (or similar language in each of the independent claims), when such limitations are taken in combination with the other instantly claimed elements of Applicant's invention.

- 2. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
- 3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M.N. Von Buhr whose telephone number is 571-272-3755. The examiner can normally be reached on M-F (9am-5pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leo Picard can be reached on 571-272-3749. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
